Hi Evelyn,

Yes, of course.

Take care,

Hi Jason

Thank you for your reply, we are very grateful for your confirmation.

We discussed joining a partner internally, because we have just started our business on Drupal and there very few customers, we hope to consider becoming a Supporting Partner after business development.

Do you think this is feasible?

Best regards

Evelyn

Hi Evelyn,

My colleague received your note regarding the Drupal Trademark use and GPL license.

We currently have many of our partners use the Drupal trademark on sw marketplaces; so, yes, this is allowable under the terms of the GPL license.

However, we do strongly encourage these organizations to become a [Supporting Partner](#) of the Drupal project. I have cc'd your partner email; is there an appropriate person that you can connect me to, to discuss the details of this program?

Thank you,

Jason Van Dorn
