**Subject:** Fw:Content Infringement Complaint Notice - MongoDB on CentOS

Hi,Rachael

I'm the CEO of Websoft9, we have received your Content Infringement Complaint from Azure Marketplace, we are very serious about this matter. I have modified the offer to respond to the your complaint. The following describes the changes I have made to respond to and address the claims made in the content infringement complainant:

- 1.Modify the offer title to MongoDB Community on CentOS, clear this is the community version of MongoDB
- 2.Add License detail in the description of this offer on Marketplace
- 3.Add our open source Github URL for this offer: <https://github.com/Websoft9/ansible-mongodb>

I want to know, whether our modifications meet the License requirements of MongoDB?

Anything next steps us to do for this Content Infringement Complaint , please don't hesitate to contact me.

# MongoDB Community on CentOS

[save for later](#)

Websoft9

★★★★★ (0) [Write a review](#)[Overview](#)[Plans + Pricing](#)[Reviews](#)

Websoft9 MongoDB stack is a pre-configured, ready to run image for running MongoDB on Azure

MongoDB is a document database designed for ease of development and scaling. MongoDB Community is the source available and free to use edition of MongoDB.

## License

MongoDB Community is free and the source is available. Versions released prior to October 16, 2018 are published under the AGPL. All versions released after October 16, 2018, including patch fixes for prior versions, are published under the Server Side Public License (SSPL) v1.

## Image Components

MongoDB Community, [Web-GUI AdminMongo\(Docker\)](#) on CentOS7.6

## Applicable Scene

Web development, Application deployment, and complex custom database stored procedures

## Why use Websoft9 Image?

Websoft9 images are packaged using industry best practices. These images are open source, stable, reliable, easy to use, secure, continually updated. Websoft9 images are not free, we think you need a partner who can provide a good product and timely support for your business. We can provide both of them for you.

**Subject:** Content Infringement Complaint Notice - MongoDB on CentOS

Microsoft has received a Content Infringement Complaint ("Complaint") regarding your offer **MongoDB on CentOS**. A copy of the Complaint is in the email below for your review.

If the issue is not addressed within 7 days from the date of this email, **Microsoft may remove the offer without further notice**. To address this issue, you have three options:

### Option 1: Modify your offer

Modify your offer through the publishing portal where you offer is managed (Cloud Partner Portal), then republish it to enter the certification queue. Complete the attached Modification Form and submit it by replying to this email.

Please note that passing certification does not guarantee that the original complainant will be satisfied that you have resolved all issues in the content infringement notice. If the modifications are insufficient to the complainant, the complainant may submit a second complaint against the same offer. If you are unsure about what to remove, you may wish to contact the complaining party directly. The complainant's contact information can be found in the Complaint.

### Option 2: Remove your offer from the Marketplace

Remove your offer from the Marketplace. If you need assistance, please [file a Support Ticket](#) under *Cloud and Online Services > Marketplace Publisher > Live Offer or Product Management*.

### Option 3: Submit a Counter Notice

If the complaint involves copyright and/or trademark concerns, you may complete the attached Content Infringement Counter Notice Form. Then, submit the completed form to [marketplaceops-art@microsoft.com](mailto:marketplaceops-art@microsoft.com). This form is compliant with the Digital Millennium Copyright Act ("DMCA").

If the complaint involves solely copyright concerns, you may elect instead to submit a legally-compliant Digital Millennium Copyright Act ("DMCA") counter-notice to [marketplaceops-art@microsoft.com](mailto:marketplaceops-art@microsoft.com).

**Note:**

- Microsoft cannot give you legal advice on this issue, and you should consider consulting your own lawyer if you are unsure about how to proceed.
- Under certain circumstances, Microsoft may remove your offer immediately without providing you an opportunity to remove it.
- To keep your publisher account in good standing, it is recommended that you review all your offers and ensure they comply with Microsoft policies.
- This email does not waive or modify the terms of your Publisher Agreement or any of Microsoft's rights or remedies.
