Hi Dylan

Thanks for you reply, Websoft9 focus software integration, support service, Cloud native, DevOps base on open source and Cloud.

Hope we have the opportunity to cooperate in the future.

Best regards,

Evelyn

Subject: Re: Unauthorized Use of HAProxy Trademark

Hi Evelyn,

Thank you for your interest in our partner program. At this time, we are not accepting new applications for channel partners in China, but it would be helpful to have some background about Websoft9 so that we may engage your company in the future if an opportunity presents itself.

Thanks,

Dylan

Hi Dylan

Thank you for confirmation.

I have another request, do you need channel partner in China? We are interested for it.

Best regards,

Evelyn

Hi Evelyn,

Thank you for the reply and explanation. The name change that you suggest is acceptable and does not violate our trademark policy. Thank you for addressing this.

Thanks,

Dylan

Hi Dylan

Thank you for email, we have read Haproxy trademark policy and we have found that we have an inappropriate use.

First, we apologize for this matter, we highly respect your IP, we want to correct it until compliance as soon as possible.

We want to change product name to **Software Load Balancer** which not include any HAProxy trademark,

How do you think about this? or can you give me some suitable suggestion?

Look forward you reply

best regards,

Evelyn

Subject: Unauthorized Use of HAProxy Trademark

Hello,

HAProxy Technologies is and has been engaged in the development, manufacture, and sale of various hardware, software and services, and has built a successful business in connection therewith. Since at least as early as 2002, we have continuously used our trademark "HAProxy" in connection with our goods and services. Accordingly, we have secured trademark registrations Nos. 86076095 and 86978420 for HAProxy, and it is our policy and practice to protect our marks from encroachment.

It has come to our attention that Websoft9 uses our trademark "HAProxy" in the product name of its commercial product. Given the similarities between your commercial product and ours, there appears to be a likelihood of confusion as to there being some sponsorship, affiliation, or some other relationship between HAProxy Technologies and Websoft9. We very much appreciate any contributions Websoft9 has made to the HAProxy community and we hope to work with you to ensure proper use of our trademarks to avoid user confusion.

Accordingly, we request that you promptly initiate steps to discontinue use of the Mark as outlined above and provide proper attribution to HAProxy Technologies when using the HAProxy trademark. For the most up-to-date usage guidelines for our trademarks, please refer to <https://www.haproxy.com/trademark-policy/>

We do understand that you may need time to comply with all rules, and we invite you to contact us so that we can work together on a reasonable long-term plan that is acceptable to all parties. Please understand that in making this offer to you, we are not waiving any rights or remedies at law or in equity, all of which are expressly reserved.

Best regards,

Dylan
